

United Regional Health Care System
School of Medical Laboratory Science
Annual Report 2020-2021
September 29, 2021

Class of 2020-2021

Three students graduated from the program on July 16, 2021. They sat for and passed their BOC exam on first attempt. The program's mean scaled score of 533 was higher than the hospitals and the national mean scaled score. One student is employed at United Regional. The other two moved back to California. One is employed and the other is in the process of being employed. All in all, it was a great year.

Fun Fact class of 2020-2021; ALL STUDENTS WERE MALE. There were four male students who got accepted but one withdrew before the start.

Class of 2021-2022

Four students were accepted into the program. There are three female and one male student. The lecture section is completed which consists of nine weeks in the classroom for five days a week and eight hours a day. Students are now in their first clinical rotation along with Friday as the case study, review, and exam day in the classroom.

Thank you for all your support of the program and the students

Respectfully,

Asma Javed, MS, MT (ASCP)
Program Director
MLS Program, URHCS
